What we do for you

Tech Stirrups were developed with the goal of honouring equestrian sports by offering the best stirrups on the market.

Each of our products has been designed with its own technical and functional features, to give every athlete the opportunity to choose the most suitable stirrups for their discipline and needs.

Our products are engineered in compliance with the equipment regulations of major international equestrian competitions.

To ensure maximum quality control of our handcrafted production process, we have kept the entire production inside our facilities.

Moreover, having at heart the environmental impact, our stirrups are completely produced in metal, non-polluting and recyclable material.

Discover our Venice Safety Design

The Venice Safety Design originates in a unique mechanism that allows the foot to release in case of need with a minimal force towards the mobile part, which then automatically returns to its original position thanks to an installed spring.

The spring installed allows the mobile part to remain closed during use, and to open when needed through a push of the foot.

The mobile part is designed to return to its closed position once the foot has exited, so that there is no protruding part that could harm the rider and/or horse in the event of a fall to the ground.

Jumping and Cross-Country

Superior grip

JUMPING & CROSS-COUNTRY SAFETY STIRRUPS

Product selection guide

Make your choice

HOW TO CHOOSE THE RIGHT SIZE STIRRUPS FOR THE RIDER

Recommended for those wearing a boot size EU 40 (UK 7 - US 8) or larger.

SAFETY STIRRUPS ADULT SIZE

CLASSIC STIRRUPS ADULT SIZE

We recommend comparing these measurements to the rider's boot. The stirrup is the correct size if its inside is approximately 1cm (0.39in) per side away from the sole of the boot.

HOW TO CHOOSE THE RIGHT SIZE STIRRUPS FOR THE RIDER

Recommended for those wearing a boot size between EU 37 (UK 4 - US 6) and EU 39 (UK 6 - US 7.5).

SAFETY STIRRUPS MEDIUM SIZE

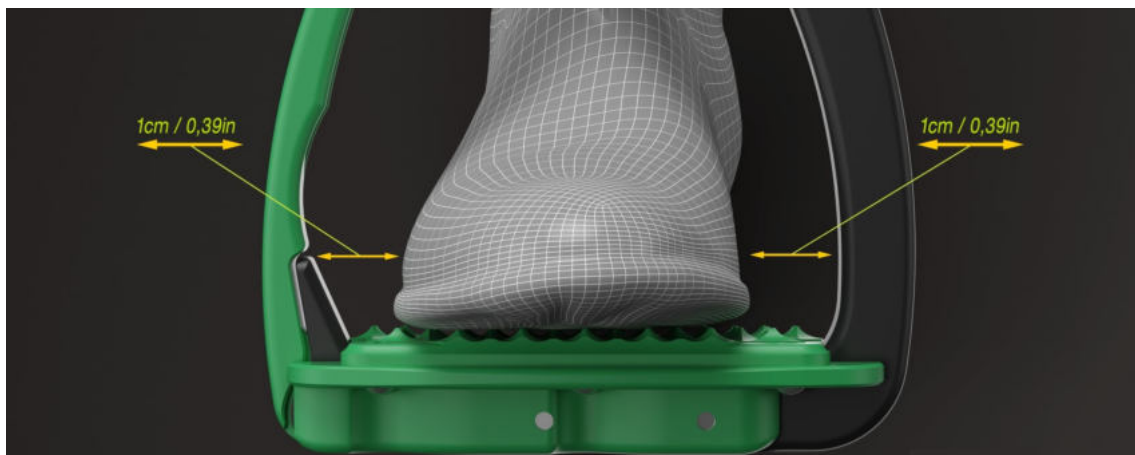

Recommended for those wearing a boot size EU 36 (UK 3 - US 5) or smaller.

SAFETY STIRRUPS CHILDREN SIZE

We recommend comparing these measurements to the rider's boot. The stirrup is the correct size if its inside is approximately 1cm (0.39in) per side away from the sole of the boot.

WARRANTY

The warranty does not cover wear (e.g. grip consumption), third-party changes, improper storage or maintenance and/or use, that is, other than that for which the device was designed.

All Tech Stirrups products are tested and checked carefully before being launched into the market.

Tech Stirrups products are covered by a **3-year warranty**, valid from the date of purchase, against defects in materials or manufacturing.

We do recommend to save the fiscal receipt, because the date of emission of the fiscal receipt will declare the starting of the warranty period.

To submit a complaint, please send an email to customerservice@techstirrups.com.
