EGO7

EGO7 riding boots & clothing, was born to become the number one brand for equestrian sports, able to stand out, to be performance leader.

Our mission is to succeed on what we do, to strengthen our commitment towards a concept of **ACCESSIBLE EXCLUSIVITY** and state our absolute unique identity.

Our aim is to achieve **peak performances** and to exceed consumer expectations and that is precisely what we do: thanks to the **innovation and technology** applied and the efficient design developed, EGO7 is the accessible concept of exclusivity.

We are like you, we love the sport and we never stop. We are young, eclectic and creative, now and forever.

We believe that everyone deserves innovation, **comfort and style** joint in a product of impeccable **Italian design.**

This is EGO7, this is the journey to your EGO.

BOOTS CARE & MAINTENANCE

We guarantee our products superior strength, however, some simple precautions will make your EGO7 riding boots last even longer.

CLEANING

Clean your riding boots with a damp cloth. Horse sweat, mud etc. are very aggressive for leather and should be removed at all times.

The leather should be moisturized using EGO7 boot cream to maintain elasticity and wear resistance. Leather boots need to dry after being worn and stored in a cool, dry and ventilated place always away from direct heat or sunlight to avoid cracks and stiffness.

EGO7 boot cream leather conditioner also provides surface protection from external aggressive agents, maintains an ideal moist and beauty of the material. Apply the EGO7 boot cream carefully, make sure to cover the entire leather surface using a brush, wait a few minutes and polish with a wool cloth. Insert boot trees to ensure that the boots maintain their original shape. Use the practical inflatable boot trees supplied to keep them in perfect shape.

How to use:

Apply thoroughly with a brush or sponge to clean leather. Wait few minutes, then polish with a wool cloth for a glossy shine. Quickly absorbed into leather, it makes it soft and smooth, it nourishes and helps restoring resiliency. We recommend to use disposable vinyl gloves. Regular use of EGO7 boot cream prolongs the life of any leather product.

ZIP MAINTENANCE

Help the zip closure with your fingers when you wear them for the first few times without forcing or pulling too much to avoid excessive strain.

Always make sure the riding boots zipper is fully open when you put on/off your boots, you can use the practical inside flap to wear them.

The zipper cleaning is an important point, if there is dirt like grease or sweat this could prevent the normal zip closing/opening and it might eventually split or suddenly brake. Also make sure your clothes or anything else do not get stuck in the zipper mechanism.

EXCLUSIVE DETAILS

Grip sole

The innovative hand-sewn rubber sole ensures a secure grip to the stirrup, suited for all kinds of terrain, it allows a quick release of the foot in case of a fall.

Breathable foot bed and anti shock insole

The combination of the cowhide footbed and the second sole made from antibacterial polyurethane highly absorbent and breathable. It maintains the natural balance of the skin at any level of activity, naturally fights bacteria avoiding excessive and unpleasant proliferation and guarantees ultimate shock absorption.

Leather Lining

The cowhides used for the lining are drum dyed, a finishing process without coating or pigmentation that ensures softness, absorbency and superior durability plus it beautifully burnishes with use.

Back flap

The clever padded-leather flap helps guide your foot into the boot making it easy and quick to wear while protecting both heel and back zipper.

Extra strong zipper

EGO7 use an extra-strong zipper with double-stitched seams to increase wear resistance. The zipper closes to the top with a leather snap keeper to create a finished look.

Spur rest

The signature element of EGO7 boots, pioneering and functional detail, sewn onto the heel counter. With 3 adjustment levels, it is designed to be functional, stylish and easy to recognize.

Breathable elastic band

It provides extra comfort and eases the leg movements while riding; it combines comfort and design, light and flexible, it allows the boot to stretch where and when in need, encourages a correct heels-down position and guarantees a perfect fit.

Full grain leather

We use only the best quality materials, cow hide dyed to show the natural texture of the leather that beautifies with use and it is the only leather good enough for EGO7 products. EGO7 boots have double-stitched seams along all stress lines to increase wear resistance.

E-TEX,

The most innovative Hi-tech material. It pairs genuine leather appearance and feel while it ensures improved resistance (up to 60% more) to intensive use and wear thanks to the superior mechanical strength, flexing endurance and tear resistance, keeping its aesthetic features unaltered. It guarantees perfect feeling and contact with both saddle and horse. It is antibacterial, water resistant, eco-friendly and 30% lighter than real leather.

READY-TO-WEAR size system

The wide choice of sizes guarantees the most personalized service thanks to 192 different combinations, EGO7 boots fit like a pair of made-to-measure boots and offer superior freedom of movement with no production wait time.

Design

Sophisticated details, captivating line, 100% designed in Italy, manufactured under strict quality standards with innovative materials and technology procedures conceived to guarantee the most amazing fit.

CHARACTERISTICS

OEKO-TEX® certified fabric

The environmental impact of the product reduced to a minimum for its entire life, the products are tested and certified to comply ecological and health care requirements and are manufactured with environmentally friendly production

COMFORT

The tridimensional elasticity and the high percentage of LYCRA® elastic fiber allows perfect freedom of movement, impeccable fit even after repeated washing.

STRETCH

The tridimensional elasticity and the high percentage of LYCRA® elastic fiber allows perfect freedom of movement, impeccable fit even after repeated washing.

SUN BLOCK

The fabric filter the sun's rays offering a higher level of protection against the damaging effects of ultraviolet rays (according to the EN 13758-1/01 method AU)

CHLORINE RESISTANCE

More durable and resistant to the corrosive action of chlorine, sweat and some corrosive agents in sun creams

NO PILLING

Maximum resistance to rubbing, it does not suffer from pilling and maintains its original appearance

BODY MOISTURE SYSTEM

Open honeycomb construction allows air to circulate between the fibers. Their breathable qualities make it cooler and more hygienic

QUICK DRYING

Thanks to the open structure of the fabric construction, drying times are extremely short and the garments dry much faster than the one made with any other fabrics

EASY CARE

Drying time is extremely fast and fabrics are absolutely easy care: they can be hand washed or machine washed as required

WRINKLE

Our garments don't wrinkle; particularly light, they take minimum space in the wardrobe or suitcase minimizing the formation of creases

EGO7 CARE LABEL IS AFFIXED TO EVERY PRODUCT AND PROVIDES YOU SPECIFIC, EASY-TO-FOLLOW INSTRUCTIONS TO MAINTAIN THE BEAUTY OF YOUR EGO7 PRODUCT.
